

## **Interview with NFS Champion “Farhan (aka Devil)” after the Djuice National Championship 2009 “Need for Speed- Most Wanted” glorious win!**

### **1. *Would you like to tell us about yourself?***

Hello, I am the “Devil” as people know me by this nick rather than my real name. Well I’m Farhan from Karachi doing ACCA. If I clear it in 2 years, then I’ll think of CFA or CIMA..I think that’s enough about me.

### **2. *How did you get interested in NFS?***

Well I’ve been playing racing games from the very beginning of NFS and then some other racing games and when I participated in WCG 2005 and came 3rd without any routine practice or training .. then I thought that this is the game for me :)

### **3. *What has been your best experience so far?***

Excellent..I get a lot of respect, friends and fame u can say...well it felt so good to be the best in Pakistan for a long time .. people coming randomly and asking for tips and handling issues..and I always wanted to clear everything to those players..cuz maybe this will increase the competition in NFS and I enjoy a lot playing games :)

### **4. *How do u rate your game in terms of individual skills***

hmm when I was doing regular practice in late 06..as I qualified for the WCG 06 Grand Finals to go to Italy..I was 1.1 second lower than the international players ..the top 12 u can say.. so I think I was pretty good to compete .. and my pool was easy too !! .. darn I didnt get the visa.. :( i even dropped my study year for this but ..whats done is done =(

### **5. *Do you think cyber games in Pakistan can go at par with international standards, what recommendations do you have for Pakistani gamers and tourney organizers.***

Yes, of course!!..y not ? international players are human too .. they arent some super humans or aliens but things which are lacking in Pakistan are sponsors..well abhi tou global recession hai but still ..in normal conditions we don’t get sponsors..and about players there are many good known players in every game .. personally m a fan of that “AT” person in dota .. cuz i played dota ..just for fun..so all they need is some kind of security that if they will play this game for like 10 hrs a day .. they will get something in return =) and for the organizers .. very good setup each time just better management like matches should be on time.

### **6. *Do you regularly play with International Clans and Players online? if so what difference do you see in local and international games?***

yes i did .. but only when i was practicing for the grand finals in 06.. now I’m totally out of the scene .. only practiced 1 week for the Djuice National Finals :D still made it to #1!

### **7. *What do you think of the Djuice national gaming championship? How did you like it and what would you like to recommend?***

Well..Djuice is always supporting gamers in every little or big tournament.. so i will say Djuice ROCKS ! and to be very honest .. i luvd this event cuz that NOKIA phone got me the money to buy my new guitar .. Djuice please keep supporting Gaming scene in Pakistan! and keep this national championship scene alive ! =) .. well recommendations are many but im tired of writing !
